

FlexCluster

Build to meet Toughest Requirements

FlexCluster – Maximum Functionality Overview

GENERAL

Operating Voltage	9V to 16V or 18V to 32V
Dimensions (mm)	290.6 x 143.5 x 72.5
Operating Temperature	-40 °C to +75 °C
Protection Class	IP 67 (front & rear side)
Inputs	24 digital, 6 analog, 4 frequency, 1 current
Outputs	3 x 500mA, 1 buzzer
Interfaces	2 x CAN, 1 x LIN, 1 x additional gauge satellite

FlexCluster – Countless Tasks. One Solution.

Benefits

Maximum flexibility

All important data can be displayed

Maximum compatibility

Wide array of inputs

Maximum robustness

High protection class

Maximum individuality

Full customizable display, dial & bezel

FlexCluster – Measures up to Every Challenge
